The **CULTURAL ASSOCIATION MUÑECOS DE MADERA** from Chancay city, Lima district- Perú is already organising the eight version of the Festival de Teatro y Performance – VIII FESTEPE INTERNACIONAL 2016 for the **UNION OF LATIN AMERICA**, which is taking place in our city. The fundamental objectives are:

“To install the theatrical event as a society need, giving strength to the event by making an schedule with invited group’s performances”.

“To make stronger the existing webs and create new spaces for cultural change from the artists to the public, making an active culture in our regions”.

“Rescue and value the theatrical art in our town, because Chancay has been making theatre for 150 years, so as a result, it’s seen as a city of culture and art”.

By this letter we are **FORMALLY INVITING** you and your company to participate with **“Medea, Medea, Medea”** play. You were chosen from about a hundred of Latin-American groups this year.

This event does not count with government or private subsidy, so we **don’t have resources to pay theatre performances or transport to and from our country**. So we send this letter to start managing resources with the government or other levels. The condition to participate in the festival is that the company has to finance their plane tickets to and from our country.

The Association guarantees **STAY**, food sustain, accommodation and internal transport for the activities of our meeting between 2 to 6 February 2016 in Chancay – Perú.
